RESPONSE

Box Non-Fee Amendment
Commissioner for Patents
Washington, D.C. 20231

Sir:

In response to the Examiner's Office Action mailed on November 6, 2001, kindly consider the following remarks in connection with the above-captioned application.

Remarks

Claims 442-491 are presently pending in the subject application.

Reconsideration and allowance in view of the following remarks are respectfully requested.

Restriction Requirement

The Examiner submits that claims 442-457, 468-471 and 485-488 are directed to inventions that are independent or distinct from the invention originally claimed (*i.e.*, the invention of newly submitted claims 458-467, 472-484 and 489-491). Based on this conclusion, the Examiner has withdrawn claims 442-457, 468-471 and 485-488 from further consideration as being directed to a non-elected invention. Applicants respectfully traverse the Examiner's restriction requirement and the withdrawal of claims 442-457, 468-471 and 485-488 for the following reasons.
